

BioSilico Limited Cookie Policy, Version: 2024-1

What are Cookies?

Cookies are small files that websites place on your hard drive or browser to enable additional features of the website to work. Use of cookies is common practice and many websites use them and most internet browsers automatically accept cookies.

We are providing this information to you as part of our policy to comply with recent changes to the law relating to the use of cookies and other information storage technology operating on websites.

Use of Cookies by BioSilico Limited

We use cookies on the BioSilico Limited website to collect information about how visitors use the website and to collect standard analytics to gather data to enhance the performance of our website. This is important to us as we want to improve the visitor journey when you browse our website and ensure that it is as user friendly as possible.

However, our cookies do not gather any personally identifying information such as a person’s name or e-mail address and any information gathered by the use of cookies is compiled on an aggregate and anonymous basis.

The table below provides further details about the cookies which are currently in use on our website and a description of the purpose of each of these cookies.

Cookie	Purpose of Cookie	Intrusiveness to customer	Expiry	Will areas of the website fail if I disable the Cookies?
Necessary Cookie Name: Session Cookie	This cookie is necessary to provide essential services to the customer as it maintains your page-by-page browsing, useful for your website experience as it remembers when you log in, your default 'favourite' branch, basket, and customisation. The data collected by the cookie includes user details, postcode/address, brand identification, where the customer is based, basket status, and the process the customer is going through (checkout, etc).	Low	End of session (when you have finished using the website).	Yes
Essential Cookie Name: Google Analytics Tracking	This cookie collects information in an anonymous form, data including the number of visitors to the SAGraphics website, where visitors have come from and the pages they have visited during their session/time spent on the website. These cookies are used to collect information (non-personal information) about how visitors use the SAGraphics website. We use the information to compile reports on usability for internal company use only and so we can improve the website for our customers.	Low	Visit the Privacy Policy of Google to find out further information about these cookies.	No - but further enhancement of the website will be severely disrupted due to a lack of customer insight.

How can you disable Cookies?

If you want to, you can disable cookies from your browser and delete all cookies that are stored on your computer. You can do this as often you want to.

To find out how to do this for your particular browser you can go to “help” on your browser’s menu or you can visit <http://www.allaboutcookies.org/manage-cookies/index.html>.

What happens if I do disable Cookies?

You will see from the table above that certain of the cookies which we use on our website are considered to be strictly necessary for the operation of certain aspects of the website.

Therefore, please be aware that if these cookies are disabled we may be unable to provide certain services which you have requested.
